Information Technology student and Software Engineer Intern with experience in back-end web development, Java application development, RESTful APIs, and database-driven systems. Skilled in building secure and maintainable applications with a focus on performance, clean architecture, and real-world software development practices.

AREA OF EXPERTISE

- Java Application Development
- Git & Version Control
- System Optimization & Debugging
- RESTful API Development
- System Architecture
- Database Design

KEY PROJECTS & ACHIEVEMENTS

Inventory Management System (JavaFX Desktop Application)

- Implemented SQLite database integration to manage product records, stock levels, and transaction data.
- Built a secure login authentication system for controlled user access.
- Designed real-time inventory tracking and automated report generation for efficient stock monitoring.
- Applied object-oriented programming principles to ensure a modular, maintainable, and scalable application architecture.

Java - Based Application Development

- Developed object-oriented Java applications emphasizing modular and maintainable code.
- Applied data structure optimization techniques to improve performance and memory efficiency.
- Implemented version control workflows using Git for collaborative development.

PROFESSIONAL EXPERIENCE

Software Engineer Intern — AlphaExplora **Aug 2026 – Present**

- Designed, implemented, and integrated application functionality based on project requirements.
- Built and integrated backend services and APIs to support application functionality and data communication.
- Used Git and GitHub for version control, code collaboration, and maintaining project development workflows.
- Collaborated with team members to troubleshoot issues, implement features, and improve existing system functionality.

Back-End Developer (Academic & Freelance Projects) **Jan 2023 – Present**
Java Developer **Jan 2021 – Present**

EDUCATION

Bachelor of Science in Information Technology **2023 – Present**

Batangas State University TNEU – JPLPC Malvar
Major in Service Management

Relevant Coursework:

- Software Engineering
- Database Systems
- Web Development

CERTIFICATIONS & TRAINING

- Computer Systems Servicing NC II
- Virtual AI Camp 2025
- SQL Associate
- Databiz Conference 2024
- PHILNITS Level 1 - IT Passport (Passed)
